Sleek Dretto™ is Latest Addition to Architectural Area Lighting's Line of Contemporary Fixtures

LA MIRADA, CALIF - Architectural Area Lighting (AAL), manufacturer of elegantly designed, high-performance lighting, unveils the latest addition to its contemporary line of fixtures - Dretto™. A sleekly designed, cast aluminum, post-top fixture, with dual stainless steel struts; Dretto provides lighting along exterior areas of buildings and pathways, as well as illuminating common areas and is an elegant embellishment to any contemporary architecture.

Suited for placement in mixed-use retail, commercial, educational, municipal and downtown renovation environments, Dretto is available in four mounting options: post-top adaptor, wall-mounted arm, single arm pole mount arm and twin arm pole mount arm. Dretto fixtures are recommended for mounting on elevated posts from 9 ft. - 18 ft., and are designed to provide a complementary look for the existing Indirect™ and Spectra™ luminaire families.

Dretto comes standard with a Horizontal reflector and flat tempered glass lens for NEMA 2,3,4 and 5 distributions. Light course selections for the fixtures are metal halide, high-pressure sodium and compact fluorescent. Options for the Dretto fixture include a low-brightness lens and house side shield.

-more-

Architectural Area Lighting (AAL), headquartered in La Mirada, Calif., is a leading provider of architectural outdoor fixtures for the commercial, municipal and institutional building markets. AAL products are designed and manufactured to meet both the elegant aesthetic and superior performance needs of its audiences. Featuring a broad range of decorative outdoor luminaires, in both contemporary as well as traditional styles, the company's assortment of lighting products can be specified and installed for use in mixed-use retail, commercial and educational applications; as well as municipal and downtown renovations, and residential developments. Architectural Area Lighting is one of the brands of the Hubbell Lighting family. For additional information visit www.aal.net.
